

About the Course

This course gives an excellent insight into all the main functions of the HR Manager's role, showing how they support all the members of an organisation at every stage in the employment cycle. You'll learn the skills of effective recruitment and selection, training and development, and establishing robust systems, as well as all the techniques, knowledge and strategies you'll need to keep every member of a team engaged, productive and feeling valued. You'll also come away with a very thorough and reliable working knowledge of employment rights, the importance of proper procedures and effective methods for dealing with performance issues and workplace disputes.

This course is aimed at those working within or seeking to enter the HR profession as well as anybody with people management responsibilities. The course will enable participants to develop the key skills and knowledge to operate successfully in HR as well as give them a practical toolkit to use which is grounded in best practice and up to date thinking.

Learning Outcomes

By the end of this course, learners will be able to:

- Demonstrate a practical working knowledge of all the main aspects of the HR Manager's role
- Put into effect clear procedures for all stages of the employment cycle: recruitment and selection, appraisals etc.
- Strategise in terms of Learning and Development, Workforce planning
- Follow correct employment law and adhere to stated policies
- Demonstrate understanding of soft skills of HR management: motivation, empathy, conflict resolution etc.

------------------------------------------	--------------------------------------------------------------------------------------------------------------------------------------------------	-------------------------------------------------------------------------------------------

Course Assessment

Assessed Component	Weighting	Deadline
Action Learning Log	40%	Week 12
Written Assignment (approx. 3000 words)	60%	2 weeks after course completion

The Action Learning Log will demonstrate the continuity of reflection throughout the course, by completing a separate AL Log worksheet for each of the main topics (average 250 words per worksheet). The full set of worksheets will be combined into an Action Learning Log, which will be submitted at the end of the course for grading.

The Written Assignment should be completed at the conclusion of the course, once all sessions have been completed. Learners are required to select at least one topic from the course that is of particular interest to them or that they would like to learn more about. The goal of the assignment is to demonstrate how learners are thinking about putting course concepts, models, tools and practices in their own context to demonstrate the course learning outcomes.
